

During the 2017-2018 school year, Winnebago Lutheran Academy will partner with the Fond du Lac Area YScreen Program to offer all 9th graders a free and confidential emotional health screen.

Winnebago Lutheran Academy and the Fond du Lac Area YScreen believe that no student should suffer in silence when help is available.

- Emotional health problems can interfere with academic success, relationships, and overall happiness
- Programs like YScreen are important because one out of five teens struggles with emotional health concerns
- Two out of three teens do not receive treatment for their emotional health problems
- Research shows that often parents are unaware of their teens' emotional health problems
- The YScreen Program is a free, confidential program for our youth
- Available to upper class students by referral
- Screening will begin at Winnebago Lutheran Academy in February 2018

Please call your child's school counselor at (920) 921-4930, contact the YScreen office at 906-6700 ext. 4714, or click on the links provided for additional information.

YScreen is proud to be funded in part by Fond du Lac Area United Way and Agnesian HealthCare and the Wisconsin Partnership Program through the UW School of Medicine and Public Health.

Vision: To offer emotional health screening to every student in the Fond du Lac Area before age 18.

YScreen's mission is to improve the emotional health of youth throughout the Fond du Lac Area by providing early identification of mental health disorders and risks of suicide through easily accessible screening, referral to services and facilitating follow-up treatment through case management.
